

Mocek Spine COVID-19 Update

- Mocek Spine is still open, and we will be seeing patients as usual this week.
- We are monitoring the situation closely and using all information provided by the CDC, Baptist Health, and other organizations to make sure Mocek Spine is a safe environment for our patients and staff.
- All patients are being screened before they enter the waiting room, we are taking extra measures to sterilize each room after each visit, only patients are being allowed past the waiting room at this time, and our staff has been trained on preventative measures so that patients can feel safe inside our walls.
- We ask that any patient with a fever over 100 degrees Fahrenheit please give us a call to discuss your options and DO NOT come into the office.
- We do have some alternatives to an in person visit if you meet certain criteria.
- If you have any concerns, please feel free to contact the office and discuss these with our excellent clerical staff.
